Sir:

In response to the Advisory Action dated February 15, 1994, Paper No. 9, please amend the above-identified application as follows:

In the Claims:

Please cancel claim 1.

Please rewrite claim 2 in independent form as new claim 34 as follows:

1) 34. A low power electromagnetic valve for use with implantable fluid delivery systems, said valve comprising:

- a housing including a fluid containing region having first and second chambers and first and second ports in fluid communication with said first and second chambers, respectively;
- electromagnet means carried by said housing and located externally of said fluid containing region;
